#### 1. Qualitative Information on Quarterly Financial Results

#### (1)Management's discussion

In the first quarter of the current fiscal year, the Japanese economy is expected to pick up under "WITH CORONA", partly due to the effects of various policies. However, the downturn in the overseas economy poses a risk of downward pressure on the economy amid the continued global monetary tightening. In addition, due attention should be paid to the effects of price increases, supply-side constraints, and changes in financial markets.

In the entertainment sector related to our group, we are communicating improved supplies of Sony Interactive Entertainment PlayStation5 and strong hardware and software sales. In addition, the cumulative domestic e-sports tournament viewing time from January to March 2023 was 1.36 billion minutes, an increase of 60% from the previous year, and the major growth of e-sports is being communicated.

Against this backdrop, in our group's outsourced software, the development of professional wrestling games modeled on the same organization developed by All Elite Wrestling (abbreviated as "AEW"), a progressive U.S. professional wrestling organization, continues to proceed smoothly, and several other software titles are also progressing.

In XR business field, we used our proprietary AR Live System"ALiS ZERO" technology. At "Project SEKAI COLORFUL LIVE 2nd - Will -" held at Makuhari Messe on January 7-9, we were in charge of motion capture recording and the production of CG models/animations. In addition, at "HATSUNE MIKU JAPAN TOUR 2023 ~THUNDERBOLT~" held in 5 locations nationwide from February to March, I was in charge of CG production for a portion of the songs of HATSUNE MIKU, KAGAMINE RIN, and KAGAMINE LEN. In addition, the Group continues to contribute to the holding of multiple live events.

In the pachinko and pachislot field, we are outsourcing video development projects for multiple titles, some of which have been completed.

In the publishing business field, we are continuing to produce "DC Dual Force", an on-line trading card game featuring DC comics characters, and we plan to distribute and launch it worldwide.

In addition, several other projects are being developed in the mobile content field.

As a result of the above, for the first quarter, net sales were 1.004 billion yen (up 0.3% year-on-year), ordinary income was 193 million yen (down 46.3% year-on-year), and profit attributable to owners of parent was 143 million yen (down 51.7% year-on-year).

Since our Group is a single segment of the digital content business, the disclosure of business results by segment is omitted.

#### (2)Explanation of Financial Position

Total assets at the end of the first quarter of the current fiscal year decreased by 159 million yen from the end of the previous fiscal year to 4.6 billion yen. The main factors were a decrease of 474 million yen in cash and deposits, an increase of 164 million yen in accounts receivable and contract assets, and an increase of 211 million yen in software in progress.

Liabilities increased 60 million yen from the end of the previous fiscal year to 773 million yen. This was mainly due to an increase of 83 million yen in accounts payable-other.

Net assets decreased 219 million yen from the end of the previous fiscal year to 3.826 billion yen. Major factors included quarterly profit attributable to owners of parent of 143 million yen, dividends of surplus of 252 million yen, and an increase in treasury stock of 118 million yen.

#### (3) Explanation of Consolidated Earnings and Other Forecasts

There are no revisions to the full-year earnings forecasts announced in the financial results for the fiscal year ending January 2023 (announced on March 10, 2023). Earnings forecasts are forward-looking statements based on currently available information. Actual results may differ from forecasts due to changes in business conditions or other factors.

(Calculation of Tax Expenses)

Tax expenses are calculated by reasonably estimating the effective tax rate after the application of tax effect accounting to profit before income taxes for the fiscal year including the first quarter under review, and multiplying profit before income taxes by this estimated effective tax rate. In addition, if the calculation of tax expense using the estimated effective tax rate results in a significantly unreasonable outcome, tax expense is calculated by considering significant additional or deductible items and tax deductible items.
